

Shieldex® Mask Pouch

self-disinfecting storage for face masks

No more crumpled-up face masks in your handbag or pants pocket! Mouth-nose masks are worn every day, constantly touched and hardly ever washed - a wonderful breeding ground for bacteria and fungi. The consequences of incorrect storage can include skin blemishes or even bacterial infections in the respiratory tract. Stay safe with Shieldex® Mask-pouches

Ideal for all face masks | Slim design: Fits in every trousers pocket | Individual embossing on front and back possible

Properties

The practical storage bag protects the face mask from dirt and other contaminants. Self-disinfecting, practical and handy, the mouth-nose protection is safely stored in the Shieldex® Mask-Pouch. The mask can be stored for an indefinite time due to the unique quality of the mask pouch.

Overview

- Antibacterial
- Anti-odor
- Self-disinfecting due to the silver ions
- Protection from multiplication of germs
- Safe storage of the cloth face mask

Effectiveness

The Shieldex ® Mask-Pouch comes with a highly antimicrobial and 99,9% pure silver metallized textile, which prevents the proliferation of microbes on the silver surface.

Turned inside out, the mask can be easily inserted into the mask pouch and disinfects itself during the time the mask is not in use.

The inner material has been used for silver-plated dressings and plasters for burn and chronic wounds in hospitals around the world for over 20 years and is OEKO-TEX® certified. Thus, it can even come into contact with baby skin.

Details

Material: inner layer silver metallized polyamide 6 (nylon), outer layer vegan alcantara leather.

Washing Instructions

Hand wash recommended, alternatively gentle cycle at 30 °C, use mild soap, do not bleach, air dry recommended.

Silver is a biocidal active ingredient according to §67 EU Biocide Regulation.
